DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Adam L. Stroud on January 3, 2006.

The application has been amended as follows:

- On page 2 of specification, the text in lines 10 – 23,

“As defined in claim 2, with a control unit evaluating the detection results can not only be evaluated the operability of the bus guardian in the assigned network node, but also the operability of other network nodes.

If a circuit portion (for example, bus guardian) in a network node has broken down, this is detected by the assigned control unit and the output of the network node is blocked (claim 3). This blocking can be realized, for example, by deactivating a switchable amplifier at the output of the network node.

Claim 4 shows a method of establishing whether a test signal generator is defective. Claim 5 describes a network comprising a plurality of network nodes and a star node in a star structure, in which network messages are transmitted by means of a pilot signal. The pilot signal is generated by a pilot signal generator as defined in claim 6. The pilot signal generator may then also perform the function of test signal generator

(claim 7). The test signal detector may also be provided for the detection of the pilot signal generated during the assigned time slot (claim 8)" has been deleted.

The amendment was made to remove parts of specification that refer to the claims.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Albert T. Chou whose telephone number is 571-272-6045. The examiner can normally be reached on 8:30 - 17:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hassan Kizou can be reached on 571-272-3088. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
